MONASH University

WANT TO HELP US BETTER UNDERSTAND ADHD?

We are interested in studying **impulsivity**, a core aspect of ADHD. If you would like to be involved, we are inviting adults with ADHD to complete an online assessment to help us better understand ADHD.

Participants will be asked to complete some questionnaires and play some games.

The assessment will take approximately **60 minutes** and requires a laptop.

Participants will receive a **$60 Coles eGiftcard** upon successful completion of the study.

To express your interest, please email
